

Ladybug Life Cycle

Materials:

- Black paper
- Red paper
- Scissors
- Glue
- Pin

Instructions:

- Print the ladybug body part 1 on black paper and cut out the head shape and body shape.
- Print the ladybug body part 2 on red paper and cut out the shape.
- Glue the red body shape onto the blackhead shape and body shape to create a complete ladybug.
- Now, let's move on to the ladybug's life cycle.
- Print the 3 life cycle stages of the ladybug.
- Cut out each life cycle stage carefully.
- We also have a ladybug life cycle wheel. Print the wheel and cut it out.
- Join the wheel together using a pin in the center.
- Take a moment to explore and understand the different stages of the ladybug's life cycle.
- Have fun rotating the wheel and learning about the transformation of a ladybug.
- Finally, use your imagination to color the ladybug and make it as vibrant as you'd like.
