

The Life Cycle of Frog

Instruction:

- Take the first page with the 2 waterlily leaf shapes. Carefully cut out both waterlily leaf shapes along the edges.
- Find the Frog life cycle pictures on the 2 designated pages. Cut out each picture carefully.
- Take one of the cut-out Frog life cycle pictures and apply glue to the backside.
- Place the glued side of the picture onto one of the waterlily leaf shapes. Press down gently to ensure it sticks.
- Repeat steps 3 and 4 for the remaining Frog life cycle pictures and waterlily leaf shapes.
- Once all the pictures are glued onto the waterlily leaf shapes, carefully fold each waterlily leaf shape in half to create a 3D effect.
- Take the page with the magic wand and cut it along the designated lines to separate it into individual strips.
- Press the middle of each strip to create a folded magic wand shape.
- Finally, on the designated Frog life cycle pages, cut out the Frog life cycle pictures and glue them in their designated places.
- Enjoy your 3D frog life cycle craft and magical wand activity!
