

Instructions

What You'll Need:

- Crayons, colored pencils, or markers
- Your creativity and curiosity!

Look Through the Pages:

Flip through the coloring pages and explore cool scenes like shaking buildings, safety steps, and earth movements!

Pick a Page to Color:

Choose the picture you want to start with. You can go in order or skip around—it's totally up to you!

Think About Earthy Colors:

What colors do you see when you think about the Earth? Maybe brown for dirt, green for trees, blue for the sky, or red for lava!

Time to Color:

- Carefully color the picture using any colors you like.
- Try to stay inside the lines, but it's okay to be creative!

Learn While You Color:

Look at what's happening in the picture. Is it showing shaking ground? People staying safe during an earthquake? Think about what you see.

Show Your Artwork:

When you finish, share your coloring page with family or friends. Tell them what you learned!
